

**Good evening**

**This is the WACOM Elmer's net with WA3COM as net control and {YOUR CALL} at the mike.**

**This net is sponsored by the Washington Amateur Communications Radio Club located in Washington, Pa.**

**This is a DIRECTED net and all amateurs are invited to check in. This net meets every Wed evening at 8:00 PM local time on the K3PSP repeater.**

**The purpose of this net is for helping and encouraging new and present amateurs to enhance their understanding and enjoyment of amateur radio.**

**And also anyone monitoring on scanners in obtaining information on joining our ranks and becoming a new amateur operator.**

**From week to week we will hope to have different Elmer's checking into this net.**

**We also encourage stations checking in to this net to have pencil and paper ready for information obtained from this net.**

**Do we have any Elmer's with us tonight that want to check in first? Please call WA3COM net control.**

**We will now take check-ins from any station with questions or without .Please call WA3COM net control.**

***Also if you have an interest in becoming an amateur radio operator please send an email to our website. Again the site is [www.wacomarc.org](http://www.wacomarc.org)***

***Total check-ins for tonight's net was ( )***

***We would like to thank all those who participated in the operation of this net and to those stations that stood by to give us a clear Frequency too operate on.***

***This has been the Washington Amateur Communications Elmer's net with {your call } at the mike securing the net at ( ?) local time and turning the frequency back to general amateur use.***
